

FOR IMMEDIATE RELEASE

THE GLOBAL SPINE INITIATIVE LAUNCHES TO TRANSFORM SPINE CARE THROUGH COLLABORATION

FLORIDA, MAY 8, 2025 - Leading experts in spine medicine have united to form the [Global Spine Initiative \(GSI\)](#), a groundbreaking collaboration dedicated to advancing patient care by fostering cooperation among spine surgeons, interventionalists, and other specialists in the field of spine medicine. This initiative aims to bridge the gap between surgical and non-surgical spine treatments, ensuring that patients receive the highest-quality, evidence-based care tailored to their specific needs.

With the rapid evolution of spine medicine, including innovations in minimally invasive procedures, biologics, and technology-assisted interventions, the necessity for a unified approach has never been greater. Global Spine Initiative is committed to aligning provider expertise with patient needs, ensuring that every patient receives the best possible outcome at all times.

"The field of spine care is advancing at an unprecedented pace," said [Dr. Stephen Hochschuler](#). "By bringing together spine surgeons and interventionalists, we are breaking down silos and fostering collaboration to deliver comprehensive, patient-centered solutions. Our goal is simple: to provide the right treatment, at the right time, by the right specialist."

The Global Spine Initiative is founded on the principle that teamwork leads to better outcomes. By combining the strengths of both surgical and non-surgical specialists, the initiative seeks to:

- Promote evidence-based treatments that prioritize patient well-being.
- Enhance interdisciplinary communication to ensure seamless care pathways.
- Advance education and research to drive innovation in spine medicine.
- Empower patients with transparent, informed decision-making.

As spine care continues to evolve, the Global Spine Initiative invites physicians, healthcare organizations, and industry leaders to join this mission. Through collaboration, education, and innovation, the initiative aims to set a new standard in spine care worldwide.

Founding Members:

Stephen Hochschuler, MD
Anthony Giuffrida, MD
Douglas Beall, MD
Reginald Davis, MD
Nomen Azeem, MD
Kris Radcliff, MD
Gurtej Singh, MD
Pierce Nunley, MD
Ashley Bailey-Classen, DO
Robert Eastlack, MD

Executive Board:

Ryan Budwany, MD
Christy Saia-Owenby
Sunil Panchal, MD
Adam Bruggeman, MD

About Global Spine Initiative (GSI)

Global Spine Initiative (GSI) is a non-profit 501(c)(3) organization dedicated to the unification and collaboration of spine care physicians in delivering high-quality, evidence-based treatments that align provider expertise with patient needs. Comprised of leading interventional and surgical spine experts, GSI fosters interdisciplinary communication and innovative practices to bridge the gap between surgical and non-surgical spine treatments. Through education, research, and strategic partnerships, GSI is committed to building a more unified, patient-first approach to spine medicine.
